

Thomas Armstrong (Construction) Limited

CLIENT: Carlisle Leisure

PROJECT: Cockermouth Leisure Centre

COMPLETION: February 2008

CONTRACT: IFC 98

PROJECT DESCRIPTION:

This project involved the forming of a new building located between an existing sports hall and swimming pool which incorporates a gymnasium, studio, reception and café with viewing facility. The structure is formed from a steel frame with curved roof and Speeddeck standing seam covering. The front entrance is constructed with full height curtain walling and automatic doors. Control of the internal temperature is through automatically controlled coolers and underfloor heating. External works included forming extra car park spaces, cycle and pedestrian paths and ramps.
