

Thomas Armstrong (Construction) Limited

CLIENT: Allerdale Borough Council

PROJECT: The Wave Centre

COMPLETION: May 2008

CONTRACT: JCT Design and Build

PROJECT DESCRIPTION:

This project involved the construction of a bespoke Maritime themed exhibition/theatre centre which included piled and ring beam foundations, insitu concrete ground and first floor slabs, structural steel frame with block, stone, cladding and aluminium curtain wall finishes externally. Internally, the centre has been fully fitted and finished with the installation of exhibition and display material.
