

Thomas Armstrong (Construction) Limited

CLIENT: British Nuclear Fuels Limited

PROJECT: Change Room Refurbishment, Sellafield

VALUE: £1.4 million

COMPLETION: December 2004

CONTRACT: GC Works2

DURATION: 68 weeks

PROJECT DESCRIPTION:

The works comprised the refurbishment of 14 no. Change Rooms and entailed the strip out of existing services, lockers, tiles and floor finishes and replacement with new plumbing, electrical, building finishes and personnel lockers.

The contract included for modifications to existing Boot Barriers and removal and replacement of clothing racks in a classified environment.

The project was carried out in a logical sequence of single and double Change Room possession, isolation, refurbishment and hand back to the client.
