

Thomas Armstrong (Construction) Limited

CLIENT: British Nuclear Group Ltd

PROJECT: Flask Marshalling Store, Sellafield

VALUE: £1.3 million

COMPLETION: May 2008

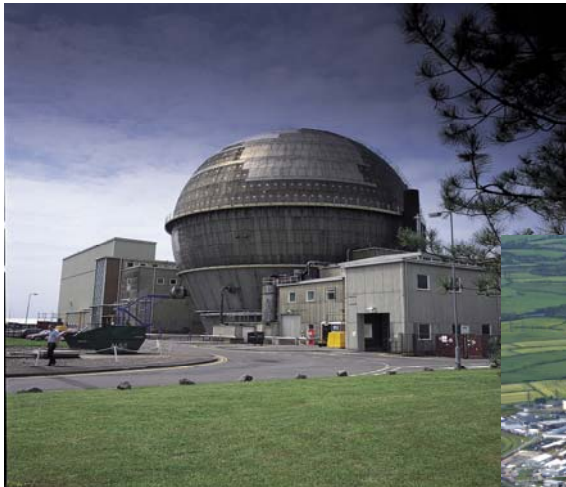

CONTRACT: GC Works 1

DURATION: 14 weeks

PROJECT DESCRIPTION:

Works in the Flask Marshalling Store included the installation of new louvers to structure of the building, internal structural steelwork alterations, internal steel walkway and ladder alterations, new blast wall construction, specialist overhead drainage works, floor painting works and neutron door installation.

The project was carried out with close communication between ourselves, British Nuclear Group and the building managers as the building was fully operational throughout the length of the works.
