

Thomas Armstrong (Construction) Limited

CLIENT: British Nuclear Group Ltd

PROJECT: Standby Police Control Room, Sellafield

VALUE: £300,000

COMPLETION: February 2007

CONTRACT: NEC2 Option A

DURATION: 12 weeks

PROJECT DESCRIPTION:

Refurbishment and upgrading of the Police Control Room included the design and installation of a new heating and ventilation system, fire suppression system, fire alarm and general electrical services, new kitchen installation, new partitions and ceilings, new raised access flooring and redecoration.

The project was carried out with close communication between ourselves, British Nuclear Group and the police as the control room was fully operational throughout the length of the works.
