

Thomas Armstrong (Construction) Limited

CLIENT: Racecourse Investment Limited

PROJECT: New Grandstand, Carlisle Racecourse

COMPLETION: October 2002

CONTRACT: JCT 98

PROJECT DESCRIPTION:

The project involved the construction of a three storey grandstand 21m high, comprising a structural steel frame with precast concrete upper floors, steppings and balconies, and a traditional pitched roof.

Externally the walls were mainly constructed from facing brickwork with some render and cladding.

Internally, the building was finished to high standards providing accommodation to the public, members and corporate hospitality. Internal fittings included four bars, two kitchens and tote betting facilities.

Included in the contract was the demolition of the existing grandstand and diversion of services.
