

Thomas Armstrong (Construction) Limited

CLIENT: Harrison Developments

PROJECT: Washington Square

COMPLETION: October 2006

CONTRACT: JCT Design & Build

PROJECT DESCRIPTION:

The construction of a 2 and 3 storey shopping centre with interconnecting malls and associated highway and drainage works. The project includes a large Debenhams store, 400 space multi storey car park, together with extensive external mall works and public art works.

The construction work was phased to allow existing town centre retail outlets to operate and included progressive demolition of existing structures.
