

Thomas Armstrong (Construction) Limited

CLIENT: Prime UK Developments Limited

PROJECT: Primary Care Centre, Aspatria

VALUE: £1,366,137

COMPLETION: September 2007

CONTRACT: JCT +Contractors Design

DURATION: 36 weeks

PROJECT DESCRIPTION:

The Design and Build of a new primary health care centre in existing farmland on West Street, Aspatria. The building is a mixture of single and two storey constructions. It also houses a pharmacy and health care centre next door to the main building.

The construction is traditionally built with a mixture of Brickwork and Render finishes to the wall. Timber trussed roofs with artificial roof slates. The project is fully accessible for wheelchair users. The extended car parking included the use of a sustainable drainage system. Minor upgrading of the adjacent highway was required for the new access.
