

# Thomas Armstrong (Construction) Limited

**CLIENT:** Carlisle College, Cumbria

**PROJECT:** Carlisle College Campus Redevelopment

**COMPLETION:** August 2006

**CONTRACT:** JCT 1998 Contractors Design

## **PROJECT DESCRIPTION:**

The project consisted of the demolition of the existing 4 storey stone built post war college facility and construction of new college learning facilities in a 4 storey steel portal frame, with permanent concrete shutters, mixed Kingspan cladding and facing brickwork, together with architectural stone features, including installation of lifts, mechanical and electrical installation and all associated external works. All works were done while the main college facilities were still in operation.
