

Thomas Armstrong (Construction) Limited

CLIENT: Cumbria County Council

PROJECT: Victoria Junior School, Workington

COMPLETION: December 2000

CONTRACT: JCT

PROJECT DESCRIPTION:

Erection of new 2 storey Junior School, together with external works and subsequent demolition of existing Victorian building. Operations include earthworks, excavation, vibro compaction of existing ground, concrete foundations, reinforced retaining walls, drainage, block work, masonry, external render, internal plastering, roof work, precast concrete floors and stairs, sand/cement screeding, timber floor finishes, suspended ceilings, mechanical and electrical and lift installation, plumbing, and joinery. Additionally there are external works consisting of fencing, surfacing, balustrading and hard landscaping.

The demolition of the existing school (phase 2) to be carried out on completion of the new school, followed by completion of hard and soft landscaping works.
